

HR

HR logs in and can:

- Create employee accounts
- Give employees login credentials
- Manage employee information
- Create projects
- Add clients
- Assign employees to projects
- Create tasks
- Assign tasks to employees
- Set deadlines
- Set priority
- View all tasks

- See which employee is working on what
- Change/reassign tasks
- Monitor overdue tasks
- View task history
- Manage employee account access

Employee

Employee logs in with their own account and sees:

- Their dashboard
- Their assigned projects
- Their assigned tasks
- Task deadlines
- Task priority
- Task description
- Project information
- Comments
- Files
- Notifications

Employee can:

- Start a task
- Change task status
- Update progress
- Add comments
- Upload files
- Mark task completed

Example

HR creates:

Project:
ABC Company Website

Task:
Create Homepage

Assigned to:
Kartik Shah

Priority:
High

Start:
21 September

Deadline:
25 September

Kartik logs in and sees:

My Tasks

Create Homepage
ABC Company Website
High Priority
Due: 25 September

[Start Task]

Kartik changes it to:

Status: In Progress
Progress: 60%

HR immediately sees the same updated task from the HR side.
